

**Swiss MedTec Holding AG acquires stake in medical technology company HONER Medizin-Technik GmbH & Co. KG in Spaichingen (DE)**

**January 18, 2021**

Dear customers, business partners and suppliers

Dear Ladies and Gentlemen

Many things are in motion - also in the medical technology industry. Movement always brings positive changes.

We are pleased to inform you that as of January 1, 2021, Mr. Tobias Honer, has sold a majority share of his HONER Medizin-Technik GmbH & Co. KG to the Swiss based MedTec Holding AG.

Together with the new owner, HONER Medizin-Technik GmbH & Co. KG, is positioned for further growth and a long-term, positive corporate development.

The MedTec Holding AG is a company managed by the Erb family with the aim of becoming a reliable development and supply partner for national and international medical technology companies by manufacturing high-quality implants and surgical instruments. In doing so, we accompany and support our customers throughout the entire project phase, from the prototype phase to series production.

With hn+m GmbH in Derendingen, Switzerland, which belongs to the MedTec Holding AG, we have already been supplying well-known customers from the medtech sector with high-quality implants and instruments for many years. With the now realized merger with HONER Medizin-Technik GmbH & Co. KG, we will be able to complement our product portfolio with high-quality surgical forceps and other instruments and thus offer our current and future customers a broader product range.

Nothing will change for you as a result of the takeover. Mr. Tobias Honer will remain Managing Director and is looking forward to continuing and expanding the success story together with you and the MedTec Holding AG Group.

We would like to thank you for your trust in the past years and will be happy to answer any questions you may have regarding this announcement.

Yours sincerely

**MedTec Holding AG**

Urs Erb, Owner

**HONER Medizin-Technik GmbH**

Tobias Honer, Managing Director
